

We are here to help

Learn about AUC's student support services.

The following support networks and services are the main resources available to AUC students. Please note that this is not an exhaustive list and you may want to look into additional resources if necessary. As your first point of contact, talk to the Student Life Officers, your tutor or your General Practitioner.

Student Life Officers

Book an appointment online: [Meetings with SLOs \(office365.com\)](mailto:office365.com)
Or send an email to studentlifeofficer@auc.nl

The Student Life Officers (SLO) are your first point of contact at AUC for support on all issues related to student life. They are available to meet with students individually to offer support, advise on student life concerns and refer students to the appropriate support services. The SLOs are also responsible for developing and coordinating the work of the Well-Being Team, including the Graduate Assistant to the Student Life Officers, Resident Assistants and Peer Supporters.

General Practitioner

For more information go to student.uva.nl/en/content/az/doctors

In the Netherlands your GP (huisarts) should always be your first point of contact when you are feeling unwell or need a referral for further tests or treatments, including lab tests, mental health services, physiotherapy etc. AUC students can seek medical treatment at the General Practitioners Practice UvA, where doctors are available with specific knowledge of student life. Visit a student doctor if you are sick, feeling down or have other health concerns. You are also welcome if you need a prescription, a lab test or a vaccination. You may also register with a different GP.

Tutors and Senior Tutor

AUC tutors are the first point of contact for students with academic concerns or questions. The tutoring system at AUC assigns each student a personal tutor who meets with them on a regular basis. The tutors provide advice on academic and administrative issues including selecting courses, academic developments or curriculum changes, academic provisions, and life after AUC.
