

AUC sample curriculum overview

Academic Core (48 credits), Major (96 credits), Electives (36 credits)

AUC sample curriculum explanation

Academic Core (48 credits), Major (96 credits), Electives (36 credits)

Major requirements (14 courses + Capstone)

Each student at AUC is either a Sciences, Social Sciences or Humanities major. All courses in the AUC programme are classified as part of the Sciences, Social Sciences, Humanities or Academic Core, with some being cross-listed between two or more majors. They are also assigned a level of 100, 200 or 300, which corresponds to how advanced the course is. The courses you must take to fulfil the major requirements are as follows:

Sciences major requirements

- Ten disciplinary courses in the Sciences
 - At least three of which are at the 300-level
 - At least one of which is a lab course
- Two theme courses in the Sciences
- The following methodology courses:
 - First year: Calculus
 - First year: Linear Algebra **or** Statistics for Sciences
- Capstone (Bachelor's thesis)

Social Sciences major requirements

- Ten disciplinary courses in the Social Sciences
 - At least three of which are at the 300-level
- Two theme courses in the Social Sciences
- A choice of the following methodology courses:
 - First year (choose one): Basic Research Methods and Statistics I **or** Statistics for Sciences
 - Second year (choose one): Basic Research Methods and Statistics II **or** Qualitative Research Methods **or** Calculus for Economics
- Capstone (Bachelor's thesis)

Humanities major requirements

- Ten disciplinary courses in the Humanities
 - At least three of which are at the 300-level
- Two theme courses in the Humanities
- The following methodology courses:
 - First year: Introduction to Literary and Cultural Theory
 - Second year: Introduction to Visual Methodologies
- Capstone (Bachelor's thesis)

Academic Core requirements (8 courses)

The following Academic Core courses are classes which all AUC students are required to take:

1. Academic Writing Skills
2. Logic, Information, Argumentation
3. The Global Identity Experience
4. Advanced Research Writing
5. One 'Big Questions' course
6. Language course I
7. Language course II (next level/consecutive course of Language course I)
8. Community Project or Internship (CPI)

Electives (6 courses)

Electives are freely chosen courses. Students may take their elective courses within their major, outside of their major or while studying abroad. Within their electives, each student must take at least one course from the other two majors than their own (i.e. if you're a Humanities major, you must also take at least one course from the Sciences and one course from the Social Sciences). Electives allow for flexibility in the programme and provide room for students to create individualised, interdisciplinary curricula that suit their interests and goals.

Options and variations

The curriculum of all students will slightly vary from this sample. For example, some students may take more electives or major courses in a given semester. Other students may choose to do their community project or internship during the 16-week period, and others may choose to do two community projects or internships during their time at AUC. Still others will take courses off-campus at the University of Amsterdam or Vrije Universiteit Amsterdam, or study abroad for a semester. Please note that students who apply and are accepted typically study abroad during the second semester of their second year or during the first semester of their third year. With many variations and areas of study possible, use this sample curriculum in conjunction with the course overviews as a guide to explore how you can construct your own personalised version of the AUC curriculum.

For questions about the AUC curriculum, please feel free to visit our website at www.auc.nl or to contact us via www.auc.nl/contact.

Academic Core 2022-2023

	Language	Interdisciplinary competencies	Disciplinary methods	LAS competencies	
300	B.2.2 : German **, Dutch **, French **, Spanish				300
	B.2.1 : German *, Dutch, French, Spanish				
	Arabic III **, Chinese III **		Advanced Research Methods & Statistics **	Capstone	
200		Big Questions in the Senses **			200
		Big Questions in Artificial Intelligence & Data **			
		Big Questions in Consciousness **			
		Big Questions in the Anthropocene			
		Big Questions: Language, Power & (Dis)empowerment *			
	B.1.2 : German **, Dutch, French, Spanish	Big Questions in Bioethics *	Introduction to Visual Methodologies	Community Project	
	B.1.1 : German **, Dutch, French, Spanish	Big Questions on the Environment: Science, Society & Culture **	Qualitative Research Methods	Internship	
	Arabic II, Chinese II	Big Questions in Time	Basic Research Methods & Statistics II	Advanced Research Writing	
100			Introduction to Literary & Cultural Theory		100
			Calculus for Economics		
			Statistics for Sciences		
	A2 : German *, Dutch (i), French, Spanish (i)		Linear Algebra	<i>The Global Identity Experience</i>	
	A1 : German **, Dutch, French, Spanish		Calculus	Logic, Information, Argumentation	
	Arabic I, Chinese I		Methods for Social Sciences Research	Academic Writing Skills	

(i) Spanish A2 & Dutch A2 offered in all periods

ACC	ACC/SSC
ACC/SSC/SCI	ACC/HUM
ACC/SCI
