About AUC

Brief facts
Amsterdam University College (AUC) is a joint initiative of the University of Amsterdam and VU University Amsterdam offering a small-scale and intensive, international liberal arts and sciences programme, taught completely in English.

Education
The interdisciplinary AUC Bachelor programme focuses on far-reaching themes and real-world problems in science and society. AUC is based on the American liberal arts and sciences model. All students live and study together on our international campus in Amsterdam East. The programme is small-scale and intensive, and with only 300 students admitted each year, selected on their academic performance and motivation, the programme is intensive.

AUC offers a wide range of courses in the sciences, social sciences and humanities. AUC students are able design their own individual study programme from the many courses that are offered. Six themes provide an orientation to the programme: Energy, Climate and Sustainability; Life, Evolution, Universe; Health & Well-being, Social Systems; Information, Communication & Cognition and Cities & Cultures.

Within the AUC curriculum there is a special focus on methodology and scientific inquiry. Since most scientific advances and cutting edge discoveries occur at the boundaries of disciplines, such issues are best pursued based on rigorous scientific training in an interdisciplinary context. AUC’s science curriculum embraces this view by providing a carefully structured course sequence supported by various methodology courses along defined interdisciplinary themes.

Campus
The AUC academic building is located at the Science Park Amsterdam. The Academic Building is located across the street from our student residences. The AUC programme is residential, which means that all AUC students (including exchange) live together and are guaranteed accommodation in the student residences. More than half of the AUC student population is international which means that the international residential aspect of the campus is an essential part of the AUC learning experience.

www.auc.nl

Deadlines
Nomination deadline (by home university): 1 April 2021 / 1 October 2021
Autumn 2021 and full year application deadline (for students): 15 April 2021
Spring 2022 application deadline (for students): 15 October 2021
Academic

Course information

Exchange students may participate in all courses offered by AUC. Courses are coded by major (Academic Core, Science, Social Science and Humanities) and by level (100, 200 and 300). Courses may have prerequisites. Students who wish to take a course with a prerequisite must have completed a course with similar learning outcomes to the course prerequisite in order to be allowed to take the course of choice.

For more information about the courses offered at AUC, please visit our course catalogue. Not all courses are offered in every semester. It is important to determine if a course is taught in the semester of choice. (Take into account that semester changes do occasionally occur over the year and the new course catalogue won’t be published until after you apply to AUC). Exchange students at AUC can only take courses offered by AUC, as UvA and VU courses lead to timetable clashes and have a different grading system. All courses at AUC start with code 900.

Course registration

The course registration period for exchange students works by invitation. For the autumn semester, you will receive registration instructions in June. For the spring semester, instructions will be sent out in December. You will get access to AUC Portal, where you can select your preferred courses. Confirmation of course enrolment will be given in August (autumn semester) or at the end of December (spring semester). During the first week of the semester, there is an add/drop period, during which you make adjustments to your schedule.

Priority of enrolment

Please note that we cannot guarantee courses. AUC courses have a maximum capacity of 25 students. If a course attracts more students than there are places, students enrolled in the AUC degree programme will be given priority over exchange students.

Language courses

AUC offers intensive language courses in January and June to all AUC students. Exchange students may select available courses in French, German, Spanish, Arabic or Chinese (depending on availability). They may also select AUC’s Dutch course as part of their study abroad curriculum for course credit.

The Institute for Dutch as a Second Language Courses (INTT) also organises Dutch language courses for exchange students. Courses at all levels start five times a year. Students interested in taking part in one of the courses should visit the website of the INTT. AUC exchange students are eligible for a special reduced fee for courses taken at the INTT. Upon successful completion of the course students will receive a certificate of completion, but the course will not count towards the AUC credits they obtain abroad. For more information about the INTT Dutch language course, please see the following website: www.intt.uva.nl
Amsterdam University College

Information Sheet 2021 – 2022

Academic calendar
The AUC academic calendar is divided into two semesters. Each semester is then subsequently divided into one period of 16 weeks and one period of four weeks. Students complete four courses of 6 European Credits (EC) during the 16-week period and one course of 6 EC over the four-week period. It is possible to ‘overload’ and take 5 courses (i.e. 30 EC) during the 16-week period, for students who wish to leave early but need to complete a full workload.

Autumn semester Academic Year 2021-2022
- Free shuttle from AMS airport [www.uva.nl/pickup]
- AUC Introduction week: 30 August - 3 September 2021
- 16-week period: 6 September – 24 December 2021
- 4-week period: 10 January – 4 February 2022

Spring semester Academic Year 2021-2022
- Free shuttle from AMS airport [www.uva.nl/pickup]
- AUC Introduction days: 5 – 6 February 2022
- 16-week period: 7 February 2022 – 3 June 2022
- 4-week period: 7 June – 1 July 2022

For more information on the academic calendar, please click here.

Course load
AUC uses the European Credit Transfer System (ECTS). A full study workload consists of 30 EC per semester, split into 16 week and 4 week periods as defined below:

- 16 week period: 24 EC (4 courses)
- 4 week period: 6 EC (1 course)

Courses offered by AUC count for 6 EC. The AUC credit system is based on “student workload”. Student workload not only involves lectures and seminars, but also self-study. Students are required to attend class from 12 – 16 hours a week and spend an additional 28 – 22 hours a week engaging in self-study.

Assessment
AUC grades students per course on a letter scale: A, B, C, D, F. A plus (+) or minus (–) reflects nuances in the assessment. Students must achieve a grade of C- or better in order to pass a course. Each letter grade is related to a percentage and a grade point (see table below).

Language of instruction

With the exception of foreign language courses (e.g. Dutch, Spanish, German, Arabic), all AUC courses are conducted in English.

On-campus accommodation

All AUC students are housed in a purpose-built complex on the Carolina MacGillavrylaan in Science Park Amsterdam. These modern student residences are owned and run by DUWO housing association. Exchange students will be assigned a single room or share a double or triple occupancy room with fellow AUC students.

Rooms will come furnished, in case of direct tenancy from the landlord. In some cases students will be able to sublet a room from students who are abroad themselves, therewith leaving their personal furnishing for the exchange student.

Students are not permitted to live off-campus. For more on the student residences, please see the following page:

http://www.auc.nl/life-at-auc-students/campus/student-residences

Living costs

http://www.auc.nl/admissions-aid/fees-costs/fees-costs

The costs provided above are rough estimates. Prices are subject to change due to inflation and will vary depending on lifestyle and preferences of individuals. Exchange students pay tuition fees to their home university.
Amsterdam University College

Information Sheet 2021 – 2022

Immigration

Student visa

Citizens of European Union member states, EEA, Australia, Canada, Japan, Korea, New Zealand, and the USA do not need an entry visa to enter the Netherlands.

All other students must apply for a visa, called “Machtiging tot Voorlopig Verblijf” (MVV) in order to enter the Netherlands. Your visa is a sticker in your passport issued by the Dutch Embassy or Consulate. The purpose of this sticker is to allow you to travel to and enter the Netherlands. For actually staying and studying in the Netherlands, you need a residence permit.

Chinese nationals who wish to attend AUC will also be required to register with Nuffic, and obtain what is called a “Nuffic Certificate” before applying for the visa. All exchange students will be guided through the visa and registration procedure through the University of Amsterdam. For more information about the student visa, visit www.uva.nl/visa

Residence permit

All students (except citizens of European Union member states and EEA) need to apply for a residence permit in order to study in the Netherlands for a period longer than three months. A residence permit is called a “Vergunning Verblijf Regulier (VVR)” and this is a permit that allows you to legally reside in the Netherlands. It is issued for a specific purpose, in your case: study.

Student Services at the University of Amsterdam (uvastudentservices@uva.nl) will inform students about their personal immigration procedure and guide them through the online process of obtaining a visa and residence permit. The student residence permit (including a visa if applicable) costs €195. For more information on the visa procedure, please visit the University of Amsterdam website.

Health and insurance

University Health Service

International students enrolled at the AUC are entitled to use the University of Amsterdam Student Medical Service free of charge if they are properly insured. In other cases, access to the Student Medical Service requires an annual fee or payment per consultation. These fees do not cover the cost of prescriptions. Students should check with their insurance company on how medical costs are reimbursed.

International students from European countries can request a European Health Insurance Card from their home country, which simplifies the procedure when
Insurance

Health insurance is mandatory by Dutch law. AUC also strongly recommends students take out an appropriate general third-party insurance (liability insurance). For non-EEA/EU students requesting a residence permit through the University of Amsterdam, liability insurance is mandatory. If students have plans to travel outside of the Netherlands, they should make sure that their insurance policy covers those regions as well.

Students should check whether their insurance will cover the complete period of their stay abroad, and what type of coverage it consists of before arriving in the Netherlands. For more information on the type of insurance required based on country of citizenship, please visit the Nuffic website. [https://www.studyinholland.nl/practical-matters/insurance/healthcare-insurance](https://www.studyinholland.nl/practical-matters/insurance/healthcare-insurance)

For recommended private insurance companies offering insurance covering medical expenses, accidents, luggage, general liability and legal assistance in the event of physical injury, please see the link [www.uva.nl/insurance](http://www.uva.nl/insurance)

Application

Procedures

Exchange students of AUC partner universities and Erasmus+ partners apply directly to AUC in four simple steps:

1. The home university nominates a student for exchange at AUC, at the latest two weeks before the application deadline
2. Candidate may download and complete the AUC exchange student application form from [www.auc.nl/exchange](http://www.auc.nl/exchange)
3. Please collect following supporting documents, which must be submitted as part of the study abroad application:
   - Motivation letter
   - Curriculum Vitae / Resume
   - Scan of your identification card or passport
   - Official verified transcript(s) of all university courses/examinations the student has taken including the credits and grades obtained.
   - Proof of English proficiency (see the section on entrance requirements for acceptable proofs of English proficiency).
4. Submit the application as one PDF to [international@auc.nl](mailto:international@auc.nl) before the given deadline.
Amsterdam University College

Information Sheet 2021 – 2022

Note: If you are a student of a UvA or VU partner university, then you must apply through the central international office of the institution (UvA or VU) that your home university has an exchange agreement with. The central international offices will pass these applications on to AUC.

Entry requirements

- Student must have completed at least 90 ECTS (or the equivalent in local credits) at the time of departure for study abroad.
- Students should have a grade point average of 3.0 (out of 4.0) and a relevant academic background in the proposed field of study. See also above for how a 3.0 is translated into percentages. For 1-10 grading scales, 7 is the minimum requirement.
- Proof of English proficiency (one of the items below is required)
  - Letter certifying English is the language of instruction and assessment from the home institution.
  - IELTS: overall score of 7.0 (with at least 7.0 in each of the four components)
  - TOEFL:
    - (paper based): overall score of 600, with a Test of Written English score of 5.5
    - (computer-based): overall score of 250, with Test of Written English score of 5.5
    - (internet-based): overall score of 100
  - Cambridge Certificate of Advanced English (CAE): grade A
  - Cambridge Certificate for Proficiency in English (CPE): grade C
